CORRIGENDUM.

No. 7549F.—30th October 1934. — The following corrections, which have been authorised, are published for general information:—

**Corrigendum to the Fundamental and Subsidiary Rules, 1st Edition (Reprint).**

*Page 103—F. R. 49—Number* the existing Audit Instruction as (1) and *insert* the following as (2):—

(2) Presumptive pay for the purposes of Fundamental Rule 49 (*b*) should according to Fundamental Rule 9 (*24*), be taken to be what the Government servant, who is placed in additional charge, would draw as initial pay in the time-scale of the additional post under Fundamental Rule 22, were he formally transferred to it. In cases, however, in which the maximum pay of the lower post is less than the pay of the Government servant in his substantive post, the application of Fundamental Rule 22 is not clear, and accordingly the Governor-General in Council has decided under Fundamental Rule 8 that in such a case the maximum of the pay of the lower post should be taken as the presumptive pay for the purposes of Fundamental Rule 49 (*b*).

*Note.*—This ruling will apply to provincial and subordinate services and special posts.

### Memorandum on the Bengal Services (Revision of Leave) Rules, 1934.

No. 7581F.—31st October 1934.—The view that the Fundamental Leave Rules are unduly liberal and that they should be replaced by something more closely related to actual requirements was expressed by the Bengal Retrenchment Committee and has been taken by several Governments in India who have recently published revised leave rules for persons appointed to their service after a specified date. The Bengal Government after a detailed examination of the subject, have accepted this view and have made revised rules which will be found in the Bengal Services (Revision of Leave) Rules, 1934, published with Finance Department notification No. 7430F., dated the 29th October 1934. The revised rules apply to all persons subject to the rule-making control of the Bengal Government appointed, or reappointed, to Government service after the 21st July 1931 (the date after which all appointments were declared, as an *ad interim* measure, to be appointments on a provisional basis) who are of Asiatic domicile or, if of non-Asiatic domicile, were not specially recruited overseas for service in India. Provisions in the Fundamental Leave Rules which are not inconsistent with these revised rules (*e.g.*, the provisions regarding Disability Leave) will continue until further orders to apply to those who are subject to the revised rules.

## NOTIFICATION.

No. 7430F.—29th October 1934.—In exercise of the powers conferred by rules 41, 42 and 44 of the Civil Services (Classification, Control and Appeal) Rules, the Governor in Council and acting with his Ministers hereby makes the following rules, namely:—

### Rules.

1. These rules may be called the Bengal Services (Revision of Leave) Rules, 1934.

2. Subject to the exception hereinafter contained, these rules shall apply (with retrospective effect where necessary from the commencement of service counting for leave) to the following classes of persons subject to the rule-making control of the Government of Bengal whose domicile is Asiatic or who, if their domicile is non-Asiatic, have not been specially recruited overseas for service in India:—

(*i*) All persons who enter or have entered or are or have been re-employed in Government service, whether in a permanent or other capacity, on or after the 22nd July 1931;

(*ii*) Persons who were in Government service whether in a permanent or other capacity on the 21st July 1931, if there is a break in their service after that date:

Provided that, in the case of a munsif who is discharged at the commencement of or during a civil court vacation and re-appointed from the date of the re-opening of the courts, the period of such discharge shall not constitute a break in his service for the purpose of these rules.

*Note.*—A person re-employed under the Bengal Re-employed Personnel (Conditions of Service) Rules, 1934, will be regarded as having had a break in service.

*Exception.*—Persons in respect of whom special provisions regarding leave have been made shall be governed by such special provisions, *e.g.*, piece-workers in the Bengal Government Press.

3. All other rules regulating leave and leave procedure contained in the Fundamental Rules and the Subsidiary Rules framed by the Local Government thereunder, as amended from time to time, shall, in so far as they are not inconsistent with, or repugnant in subject or context to, these rules, remain operative in the case of all persons to whom these rules apply:

Provided that, in their application to persons subject to these rules, all references in the Fundamental and Subsidiary Rules to leave on average pay shall be read as references to "earned leave"; and all references to four months' leave without distinction of kind as references to 90 days' leave without distinction of kind.

4. In these rules—

(*i*) "Leave" includes earned leave, leave on private affairs, leave on medical certificate and extraordinary leave;

(*ii*) "Earned leave" means leave earned in respect of periods spent on duty;

(*iii*) "Earned leave due" means the amount of earned leave, calculated as prescribed in rule 10 or rule 11, diminished by the amount of earned leave taken;

(*iv*) "Government servant in permanent employ" means an officer who holds substantively a permanent post or who holds a lien on a permanent post or who would hold a lien on a permanent post had the lien not been suspended.

5. Leave cannot be claimed as of right. Discretion is reserved to the authority empowered to grant leave to refuse or revoke leave at any time according to the exigencies of the public service.

6. Unless the Local Government shall otherwise determine, a Government servant shall cease to be in Government service if he is continuously absent from duty for five years whether with or without leave, unless such absence is absence on foreign service in India.

7. Any kind of leave under these rules may be granted in combination with or in continuation of any other kind of leave.

8. No leave shall be granted beyond the date on which a Government servant must compulsorily retire:

Provided that, if a Government servant has applied in writing for earned leave due to him preparatory to retirement and has on account of the exigencies of the public service been denied that leave in whole or in part by the authority empowered to grant it, the said authority may grant to the Government servant the whole or any portion of the earned leave so denied, even though it extends to a date beyond the date on which such Government servant must compulsorily retire:

Provided further that a Government servant whose service has been extended in the interests of the public service beyond the date of his compulsory retirement may similarly be granted either within the period of extension or, if the conditions of the preceding proviso are satisfied, after its expiry, any earned leave which could have been granted to him under the preceding proviso had he retired on that date and in addition any earned leave due in respect of such extension not exceeding the limit of 90 days in all prescribed in rule 10.

9. Subject to the provisions of rule 5 and rule 8, a Government servant may at any time be granted the whole or any part of the earned leave due to him.

10. The earned leave admissible to a Government servant in permanent employ is one-eleventh of the period spent on duty, provided that, when the earned leave due to a Government servant amounts to 90 days, he shall cease to earn such leave.

11. (*a*) The earned leave admissible to a Government servant not in permanent employ is, when he is in superior service, one-twenty second of the period spent on duty, provided that when the earned leave due amounts to 30 days he shall cease to earn such leave.

(*b*) No earned leave is admissible to a Government servant in inferior service not in permanent employ.

12. A Government servant not in permanent employ appointed without interruption of duty substantively to a permanent post will be credited with the earned leave which would have been admissible if his previous duty had been duty as a Government servant in permanent employ diminished by any earned leave already taken. Leave is not an interruption of duty for the purpose of this rule.

13. Subject to the provisions of rule 14—

(*a*) Earned leave is not admissible to a Government servant in permanent employ serving in a vacation department in respect of duty performed in any year in which he avails himself of the full vacation.

(*b*) The earned leave admissible to such a Government servant in respect of any year in which he is prevented from availing himself of the full vacation is such proportion of 30 days earned leave as the number of days of vacation not taken bears to the full vacation.

If in any year he is prevented from availing himself of any part of the vacation, earned leave is admissible to him in respect of that year in accordance with the provisions of rule 10.

(*c*) Vacation may be taken in combination with or in continuation of any kind of leave under these rules, provided that the total duration of vacation and earned leave taken in conjunction, whether the earned leave is taken in combination with or in continuation of other leave or not, shall not exceed 90 days.

(*d*) Earned leave is not admissible to a Government servant serving in a vacation department who is not in permanent employ.

14. Notwithstanding anything in sub-rules (a) and (b) of rule 13—

(a) the earned leave admissible to the Judges and Registrar of the Small Cause Courts, Calcutta, and to members of the Bengal Civil Service (Judicial) in respect of duty performed in any year in which the officer avails himself of the full vacation shall be 1/22nd of the period spent on duty:

(b) the earned leave admissible to such a Government servant in respect of any year in which he is prevented from availing himself of the full vacation shall be such proportion of 15 days earned leave as the number of days of vacation not taken bears to the full vacation.

15. Leave on private affairs may be granted only to a Government servant in permanent employ in superior service and to the following extent, namely:—

(a) If not belonging to a Subordinate Service for 18 months in all, and on any one occasion for not more than 3 months if spent wholly in Asia or for not more than 9 months if spent wholly outside Asia;

(b) if belonging to a Subordinate Service for 12 months in all, and on any one occasion for not more than 3 months if spent wholly in Asia or for not more than 6 months if spent wholly outside Asia.

16. Leave on medical certificate not exceeding twelve months in all during his service may be granted to a Government servant in permanent employ. Such leave shall be given only on production of a medical certificate from such medical authority as Government may by general or special order prescribe in this behalf and for a period not exceeding that recommended by the medical authority:

Provided that, when the maximum period of 12 months is exhausted, further leave on medical certificate not exceeding 6 months in all may be granted in exceptional cases on the recommendation of a Medical Board.

17. (1) Extraordinary leave may be granted to any Government servant in special circumstances—

(a) when no other leave is by rule admissible, or

(b) when other leave is admissible, but the Government servant concerned applies in writing for the grant of extraordinary leave.

(2) Except in the case of a Government servant in permanent employ, the duration of extraordinary leave shall not exceed 3 months on any one occasion.

(3) The authority empowered to grant leave may commute retrospectively periods of absence without leave into extraordinary leave.

18. (1) A Government servant on earned leave is entitled:—

(a) if in permanent employ to leave salary equal to his average pay, or to his average substantive pay for the preceding 12 months, whichever is greater:

Provided that the leave salary of a Government servant in inferior service shall be reduced by half the amount of the pay drawn by any substitute employed in his absence;

(b) if not in permanent employ to leave salary equal to his pay on the day before the leave commences.

(2) A Government servant on leave on private affairs or leave on medical certificate is entitled to leave salary equal to half his average pay, or to half his average substantive pay for the preceding 12 months, whichever is greater, subject in either case to a maximum of Rs. 750.

(3) A Government servant on extraordinary leave is not entitled to any leave salary.

*Explanation.*—For the purposes of this rule, average pay means the average monthly pay earned during the 36 complete months preceding the month in which the event occurs which necessitates the calculation of average pay, and substantive pay means the pay of the permanent post which the Government servant holds substantively or on which he holds a lien or would hold a lien had the lien not been suspended.

Construction of perpendiculars to straight lines.
Construction of an angle equal to a given angle.
Construction of parallels to a given straight line.

Theorems.

If two sides of a triangle are unequal the greater side has the greater angle opposite to it; and the converse.

Any two sides of a triangle are together greater than the third.

Of all straight lines that can be drawn to a given straight line from a given point outside it, the perpendicular is the shortest.

When a straight line cuts two other straight lines, if—

(1) a pair of alternate angles are equal, or
(2) a pair of corresponding angles are equal, or
(3) a pair of interior angles on the same side of the cutting line are together equal to two right angles,

then the straight lines are parallel; and the converse.

Straight lines which are parallel to the same straight line are parallel to one another.

### *Class VIII.*

#### Problems.

Division of straight lines into any number of equal parts.

Construction of triangles and quadrilaterals with sufficient data.

Construction of a triangle equal in area to a given quadrilateral.

#### Theorems.

The sum of the angles of a triangle is equal to two right angles; and the two corollaries thereto.

If two triangles have two angles of the one equal to two angles of the other, each to each, and also one side of the one equal to the corresponding side of the other, the triangles are congruent.

If two right-angled triangles have their hypotenuses equal and one other side of the one equal to one other side of the other, the triangles are congruent.

The opposite sides and angles of a parallelogram are equal, each diagonal bisects the parallelogram; and the diagonals bisect one another.

If there are three or more parallel straight lines and the intercepts made by them on any straight line that cuts them are equal, then the corresponding intercepts on any other straight line that cuts them are also equal.

II The draft will be taken into consideration on or after the 2nd January 1935, and any objection or suggestion in respect thereto which may be received by the undersigned through the District Magistrate before that date will be duly considered.

**Draft rules for the preparation, submission and execution of projects for water-supply, sewerage or drainage by union boards.**

1. *Definition.*—In these rules—

(*a*) "union board" means a union board constituted under the provisions of the Bengal Village Self-Government Act, 1919.

(*b*) "Chief Engineer" means the Chief Engineer, Public Health Department

(*c*) "Sanitary Board" means the persons for the time being appointed either by name or by official designation by the Local Government by notification in the *Calcutta Gazette* to constitute a Sanitary Board.

**Schemes and Projects.**

2. *Preparation of sketch of project*—(1) Whenever a union board desires to undertake a project for water-supply or sewerage, or a comprehensive scheme of surface drainage, or the improvement or extension of existing works of this description, it shall first cause to be drawn up a sketch of the project roughly showing its scope and approximate cost

(2) Such sketch may be drawn up—

(*a*) by the Chief Engineer, at the request of the union board; or

(*b*) by any private firm approved by the Chief Engineer; or

(*c*) with the permission of the Chief Engineer, by the District Engineer, for whose services an application should be made to the district board; or

(*d*) by an officer specially appointed by the union board for the purpose, subject to the selection of such officer being approved of by the Chief Engineer.

(3) In cases (*b*) to (*d*) referred to in sub-rule (*2*), the sketch of the project, while in course of preparation, shall be subject to examination by and control of the Chief Engineer.

(4) The Chief Engineer shall, in all cases, act as adviser of the union board.

3 *Submission of sketch, statement and application.*—(1) When the sketch of any project has been drawn up under rule 2 and it is estimated to cost Rs. 10,000 or more, or in the case of an estimate of less than Rs 10,000, if the financial assistance of Government is desired, or if the project is a part of a larger one, the union board shall submit it to the Sanitary Board through the district board and the Commissioner of the Division, together with a statement wherein shall be shown the amount of the funds available to meet the capital and recurring cost of the project either from current revenue, or by way of loan from the district board, or from any other source.

(2) The Sanitary Board, after considering the project, shall forward it to the Local Self-Government Department for administrative approval, with such recommendations as they may think fit, and, in the case of schemes relating to local areas under the control of two or more union boards, with proposals for the distribution of the costs.

(3) In the case of a scheme the total estimated cost of which is less than Rs. 10,000, not being part of a larger scheme, or one for which financial assistance from Local Government is required, the administrative approval of Local Government shall not be necessary; but the Chief Engineer shall be consulted, and the scheme, with a copy of the Chief Engineer's opinion on it, shall be submitted through the district board to the Commissioner of the Division for approval.

4. *Conditions precedent to obtaining administrative approval of Government to a project.*—In order to obtain the administrative approval of the Local Government to any such project, the union board shall satisfy the Local Government—

(1) that the cost of maintenance of the projected work can be met by the union board from revenue;

(2) that any loan required to meet the cost of the work will be granted by the district board; and

(3) that the work can be done effectually in the manner and for the cost proposed.

5. *Procedure after grant of administrative approval: Preparation of detailed plans and estimates.*—(1) When the administrative approval of the Local Government or the Commissioner of the Division, as the case may be, has been obtained to any such project, and in no case before, except with the previous sanction of the Local Government or the Commissioner as the case may be, the union board may arrange for the preparation of detailed plans and estimates, and for this purpose may—

(*a*) apply for the services of the Chief Engineer; or

(*b*) with the previous sanction of the Chief Engineer—

(*i*) entrust the work to a private firm; or

(*ii*) apply to the district board for the services of the District Engineer; or

(*iii*) cause the plans and estimates to be prepared by an officer specially appointed for the purpose, subject to the selection of such officer being approved of by the Chief Engineer, who shall first satisfy himself that the officer is fully qualified for the work in question.

(2) In case (*a*) referred to in sub-rule (*1*), application shall not be made for the preparation of plans and estimates for alternative schemes, unless the union board at the same time undertakes to pay for each such scheme the fees laid down in rule 29.

*Note.*—Revision by the Chief Engineer on his own initiative of plans and estimates previously prepared by him with a view to effect economy or improvements, does not amount to the preparation of an alternative scheme for the purpose of this rule.

(3) In case (*b*) referred to in sub-rule (*1*), the plans and estimates, while in course of preparation, shall be subject to examination by and control of the Chief Engineer.

6. *Submission of detailed plans and estimates for final sanction.*—(1) The detailed plans and estimates shall, on completion, be forwarded in duplicate to the Sanitary Board through the district board and through

the Commissioner of the Division, or for final sanction to the Commissioner of the Division through the district board as the case may be, together with a report on the state of public feeling in regard to the scheme, and in the latter case, also with a copy of the Chief Engineer's opinion on the scheme as finally drawn up.

(2) In the case of drainage schemes the estimates shall be submitted in forms to be obtained from the office of the Chief Engineer.

(3) When the scheme has not been prepared in the office of Chief Engineer, it shall be accompanied by full details of the calculations of the size and strength of the various works and complete information as to the prices on which the estimates have been framed.

(4) The Sanitary Board shall submit the scheme forwarded to it under sub-rule (1) to the Local Self-Government Department for final sanction, with an expression of their opinion on its merits as finally drawn up.

7. *Submission of proposals for rules regulating house connections.*—If such project is drawn up with the intention of allowing house connections, the union board shall, within three months of submitting the detailed plans and estimates under rule 6, submit proposal for rules regulating house connections to be framed by Local Government under section 101.

8. *Commencement of work.*—No work shall be commenced on the project, nor shall any agreement be entered into in respect thereof, until the detailed plans and estimates have received the final sanction of the Local Government or the Commissioner of the Division, as the case may be.

9. *Sanction to heavy excesses over detailed estimates.*—If at any time during the progress of the work the union board has reason to anticipate that the sanctioned detailed estimate will be exceeded by more than 10 per cent., or if it shall at any time appear to the union board that the sanctioned detailed scheme will require material alteration, the union board shall forthwith submit through the district board to the Local Government or the Commissioner of the Division, as the case may be, for approval a revised scheme with revised estimates and plans.

The revised estimates and plans shall be prepared—

(*a*) in the case of schemes prepared and carried out by a firm of engineers or by an engineer specially appointed for the purpose under rule 5 (1) (*b*) (*i*) or 5 (1) (*b*) (*iii*) and rule 11 (2) (*a*), by the firm of engineers or the engineer so appointed, and shall be scrutinized by the Chief Engineer;

(*b*) in the case of schemes prepared and carried out by the District Engineer under rules 5 (1) (*b*) (*ii*) and 11 (2) (*b*), by that officer and shall be scrutinized by the Chief Engineer;

(*c*) in all other cases, by the Chief Engineer.

10. *Taking over of complete supervision and control by Chief Engineer.*—(1) The Chief Engineer shall have complete supervision and control of the carrying out of all schemes of water-supply, sewerage, and drainage towards which the Local Government may make a grant amounting to Rs. 50,000 or more, or to half the total cost of the scheme, or more. The union board shall undertake to pay the fees specified in rule 31 before work on the scheme is begun.

(2) In other cases the union board may request the Chief Engineer to take over supervision and control of the work, and on the union board undertaking to pay the fees specified in rule 31, the Chief Engineer, shall, if he considers that he can do so without detriment to the public service, take over such supervision and control.

(3) Works of which the complete supervision and control are taken over by the Chief Engineer, under sub-rule (1) or sub-rule (2) are to be considered as contribution works and shall be carried out by the Engineering Branch of the Public Health Department under the rules regarding such works in paragraphs 210 to 214 of the Bengal Public Works Department Code (1st edition), except that the provision made in the code for establishment, etc., will be covered by the fees specified in rule 31 hereof, or shall be met by the union board by payment of such fees as the Local Government may, from time to time, prescribe.

(4) In addition to the above fees the union board shall bear all law charges on behalf of the Local Government in any suits brought by contractors or others in connection with the execution of any project under this rule:

Provided that no charge shall be payable by the union board under sub-rule (4), if, in the opinion of the Local Government, the suit is due to the malfeasance or negligence of the Chief Engineer, or an officer subordinate to him.

11. *Conditions as to detailed engineering supervision.*—(1) Where the projected work is estimated to cost Rs. 10,000 or more, adequate provision for detailed engineering supervision shall be a condition precedent to the grant of final sanction by the Local Government.

(2) In the absence of special sanction to the contrary, one of the following arrangements shall be made:—

(*a*) that the work be carried out under the supervision of an engineer, specially employed for the purpose, assisted by an adequate establishment of properly qualified overseers, the name and qualifications of the engineer having been previously submitted to the Chief Engineer, and approved by him; or

(*b*) that, with the previous approval of the Chief Engineer, arrangements be made with the district board for the carrying out of the work under the supervision of the District Engineer and his staff; or

(*c*) that the work be carried out under the complete supervision or control of the Chief Engineer, in the manner provided in rule 10.

(3) In the case referred to in sub-rule (2) (*a*) and (*b*), the work while in progress shall be subject to inspection by and control of the Chief Engineer.

12 *Report by union board to the Commissioner in case of small work.*—Where the estimated cost of work amounts to less than Rs. 10,000 the union board shall report, for the information of the Commissioner of the Division, the agency by which it is proposed to have such work carried out, and shall follow the instructions issued by the Commissioner in the matter.

## Tenders and Contracts.

13. *Procedure to be followed in case of other works.*—In the case of works carried out under rule 11 (2) (*a*) and (*b*) the procedure provided by rules 14 to 25 shall be followed.

14. *Preparation of drawings, specifications, forms of tender, etc.*—When requested by the union board, the Chief Engineer, shall, subject to the payment of the fees mentioned in rule 29, prepare working or contract drawings, specifications, estimates, bills of quantities, forms of tender, or other documents or plans required for the execution of sanitary

engineering works which have been duly sanctioned and which are to be let out by contract, as well as forms of advertisement inviting tenders for such works.

15. *Approval of Chief Engineer to drawings, specifications, forms of tender, etc.*—When drawings, specifications, bill of quantities, forms of tender, and other documents or plans referred to in rule 14 are not prepared by the Chief Engineer, such drawings, specifications, bills of quantities, forms of tender and other documents or plans, shall be submitted to him for approval in writing before tenders for the contract of such work are advertised in newspapers.

*Note (i).*—The terms of a contract shall be precise and definite and there shall be no ambiguity or room for misconstruction therein.

*Note (ii).*—When necessary, legal and financial advice shall be taken in regard to the nature and form of a contract before it is finally accepted.

*Note (iii).*—The standard form of a contract shall be adopted, wherever possible, and its terms shall be adequately scrutinized before it is finally accepted.

*Note (iv).*—Provision shall be made in contracts for safeguarding properties belonging to the Government or local bodies when such properties are entrusted to a contractor.

16. *Advertisements inviting tenders.*—Every advertisement for tenders shall be published in one or more newspapers and shall briefly describe the works required to be carried out, and state the place or places where plans and drawings can be seen, and copies of the specifications and forms of tender can be obtained, the deposit to be paid by any person making a tender, and the date and hour up to which tenders will be received.

17. *Approval of plans, drawings, specifications, forms of tender, etc., by the union board.*—All plans, drawings, specifications, bills of quantities, forms of tender and advertisements shall be formally approved by the members of the union board in meeting. Whenever the union board desires to make any alteration in any one of such documents, the Chief Engineer, shall be informed and his advice obtained with regard to such alteration.

18. *Submission and receipt of tenders.*—All tenders shall be submitted in sealed covers addressed to the President of the union board, who shall attend in person at the office of the union board, or at any other place to which it has been directed that tenders shall be forwarded, at the latest hour specified in the advertisement for the receipt thereof. Any tender received after such hour shall not be considered.

19. *Opening and numbering of tenders.*—The President of the union board shall himself open the tenders, shall number each tender, and shall note thereon the exact time at which it was opened.

20. *Checking and scrutiny of tenders.*—After the tenders have been opened, they shall be—

(i) sent to the Chief Engineer; or

(ii) in the case of works carried out under rule 11 (2) (a) under the supervision of an engineer approved by the Chief Engineer, as being competent to advise on these questions, handed, to that officer; or

(iii) in the case of works carried out under rule 11 (2) (b) under the supervision of the District Engineer, handed to that officer,

for check and scrutiny:

Provided that, in case (*ii*) or (*iii*) the engineer employed by the union board or the District Engineer, as the case may be, shall, in case of difficulty or uncertainty, consult the Chief Engineer.

21. *Return of tenders after check and scrutiny.*—The Chief Engineer, or the engineer employed by the union board, or the District Engineer, as the case may be, shall, after checking and scrutinising the tenders, return them to the union board with his remarks and recommendations.

22. *Consideration of tenders.*—The members of the union board shall in a meeting consider the tenders when checked and scrutinised under rule 20, and either accept one of them provisionally or, if necessary or desirable, refer the matter to the Chief Engineer for advice.

23. *Acceptance of tender*.—No tender shall be accepted which is not in order, is not fully priced out, and is not in every way in accordance with the instructions contained in the advertisement inviting such tenders. Any alteration or reduction in a tender made by the person making the tender after the same has once been submitted shall (except in the case of a palpable arithmetical error) at once render the tender out of order. In cases where the lowest tender is not accepted the reasons for such non-acceptance shall be recorded, and in provisionally accepting a tender the financial status of the contractor shall be taken into consideration in addition to all other relevant matters.

24. *Discharge of tenders and advertisement for fresh tenders*.—If it is found that none of the tenders submitted is satisfactory, or if for any reason it is believed that the conditions of submitting tenders have not been properly understood, so that fair tenders have not been received, all such tenders shall be discharged and fresh tenders shall be advertised for.

25. *Provisional acceptance and submission of tenders to the Chief Engineer*.—After a tender has been provisionally accepted, it shall be submitted to the Chief Engineer, for final approval, together with all other tenders received for the work, and until such approval has been received no tender shall be finally accepted by the union board.

Provided that, in case of a difference of opinion between the union board and the Chief Engineer, in regard to the acceptance of a particular tender, the matter shall, if the union board so desires, be referred to the Chief Engineer, Roads and Buildings, whose decision shall be final and binding on all parties.

26. *Placing and acceptance of contracts*.—Whenever practicable, contracts shall be placed only after tenders have been openly invited. Even in cases where a formal written contract is not made, no orders for supplies shall be placed without a written agreement as to the price of the articles supplied. No contract involving an uncertain and indefinite liability, or containing any condition of an unusual nature, shall be accepted without the previous consent of the competent financial authority. The terms of the contract, once accepted, shall not be materially varied without the previous consent of such authority.

27. *Bengal Public Works Department Code to apply to certain works.*—Works carried out under the complete supervision or control of the Chief Engineer under rule 11 (2) (*c*) shall be governed *mutatis mutandis* by the rules contained in paragraphs 175 to 180 of the Bengal Public Works Department Code (1st edition), and the Chief Engineer shall have the power of accepting tenders up to the limit of estimates sanctioned by Government.

28. *Examination of contracts by audit authorities*.—The audit authorities shall have power to examine contracts and to bring before the Public Accounts Committee any cases where competitive tenders have not been called for, or where high tenders have been accepted, or where other irregularities in procedure have come to light.

**Fees.**

29. *Fees.*—The fees mentioned in column 2 of the following table shall be payable by a union board for the services of the Chief Engineer specified in column 1 of that table:—

| Nature of work.<br>1 | Fees.<br>2 |
|---|---|
| (a) Preparation of detailed estimates and drawings for projects and schemes. | 2 per cent. on the estimated cost of the works. |
| (b) Examination and check of detailed estimates and drawings for projects and schemes prepared by a different agency. | ½ per cent. on the first Rs. 20,000 of the estimated cost, and ¼ per cent. on the balance of the estimated cost of the works. |
| (c) Preparation of contract drawings, specifications and forms of tender. | 2 per cent. on the estimated cost of the works. |

Provided that, when both detailed estimates and drawings and contract drawings, specifications and forms of tender [as specified in items (a) and (c), respectively, in column 1 of the above table] in respect of the same works are prepared by the Chief Engineer, an inclusive fee of 3 per cent on the estimated cost of such works shall be payable.

*Note 1.*—In calculating the fees the cost of survey, land acquisition and supervision shall be excluded from the estimated cost.

*Note 2.*—These fees shall be included in the estimates and recovered by debit to the works as a first charge on the scheme.

*Note 3.*—The union boad shall pay these fees in cash in accordance with the procedure laid down in article 426 of the Audit Code, if it abandons the detailed scheme at any time, or if, after budget provision has been made for the purpose, it is unable to commence the work within six months, or such longer period as the Local Government may be pleased to allow, of the final sanction of the scheme.

(*f*) "hygrometer" means an accurate (combined) wet and dry-bulb thermometer conforming to the prescribed conditions as regards construction and maintenance ;

(*g*) "degrees (of temperature)" means degrees on the Fahrenheit scale.

## CHAPTER II.

### *Inspection.*

3. The Inspector appointed under sub-section (*1*) of section 10 shall be primarily responsible for the administration of the Act within the area for which he is appointed, or, in any area where there are more Inspectors than one, within the area assigned to him under sub-section (*5*) of section 10. The extent of his responsibility shall be in accordance with the powers conferred upon him as declared by notification under sub-section (*6*) of section 10. In order that he may satisfy himself that the provisions of the Act and of these rules are duly observed he shall make such inspections of factories as may appear to be necessary to him or to the Chief Inspector.

4. After each inspection of a factory the Inspector shall send to the occupier or manager of the factory a report upon any conditions of the factory as are contrary to the Act or to these rules, or as may seem to him to require comment, together with any orders or recommendations for their remedy or removal, and a copy of such extracts from the report as may be necessary for the information of the District Magistrate, shall be furnished to the District Magistrate.

5. In addition to and without prejudice to any other powers or duties which the Inspector may exercise under the Act or these rules, he may, at each inspection—

(*1*) note how far the defects pointed out at previous inspections have been removed, and how far orders previously issued have been complied with, and

(*2*) inquire into the cause of all accidents which have taken place since the last inspection.

6. The Inspector may request the occupier or the manager of the factory to supply him with any information necessary to enforce the observance or otherwise of any provision of the Act, or the execution or

observance of any order of an Inspector. Such requests if made during an inspection, shall be complied forthwith if the information is available in the factory; and if made by letter, shall be complied with within seven days from the date of receipt.

7. An Inspector may require the occupier or the manager of a factory to produce forthwith any registers or other documents kept in pursuance of the Act or of these rules, or of any order under the Act.

8. The Inspector may require the occupier or the manager of a factory to properly file and exhibit to him any certificate, order, letter, report, or other document issued by an Inspector or other officer duly appointed in this behalf by the Government or by a local authority with respect to the fitness or safety of the factory or any portion of its buildings, works, plant, machinery, apparatus, or ways, or with respect to the fitness of persons employed in the factory.

9. In the case of factories situated in places within the limit of a local authority if it appears to the Inspector that there has been a breach of the provisions of any municipal or local Act relating to sanitary arrangements, removal of objectionable rubbish, the cleaning and fencing of water tanks or the like matters, the Inspector shall, without prejudice to any action which he is empowered to take under the Act or the rules thereunder draw the attention of the local authority to the breach of such provisions.

10. When in any area the District Magistrate or an additional Inspector exercising the powers of an Inspector makes an inspection, a copy of his note on the inspection shall be sent to the Inspector primarily responsible for the administration of the Act within that area for such action as the latter may think necessary.

## CHAPTER III.

*Duties of certifying surgeons.*

11. The certifying surgeon shall fix such place and such times for the attendance of persons wishing to obtain certificates of age and physical fitness as he may deem convenient. Notice of the place and the times thus fixed shall be given to the managers of factories within the local limits for which he is appointed. The occupier or manager of a factory or person examined shall not be chargeable with any fee or consideration of any kind for an examination made or certificate granted by the certifying surgeon or examining surgeon, but where a registered practitioner is retained by the occupier or manager of a factory as medical officer in consideration of a salary, his duties may include those of examining surgeon when he is authorised under sub-section (2) of section 12 by the certifying surgeon.

12. The number of visits per annum to any factory by a certifying surgeon, shall be in accordance with the requirements of the Chief Inspector.

13. (1) Certificates of fitness granted under section 52 to children or adolescents shall be in Form No. 1 or Form No. 2, as the case may be, in the schedule annexed to these rules.

(2) Every certifying surgeon shall keep a bound book containing Form No. 1 and Form No. 2 in foil and counterfoil. The forms shall be numbered consecutively and shall be printed on durable material.

(3) Every certificate granted under section 52 shall be prepared by filling up the foil and counterfoil, on both of which shall also be impressed the left thumb mark of the person in whose name the certificate is granted.

14. The certifying surgeon shall, when satisfied as to the correctness of the entries made therein, sign the foil and initial the counterfoil, and shall deliver the foil to the person at whose request the certificate was granted. The foil so delivered shall be the certificate granted under section 52.

15. Where a certifying surgeon authorises a registered medical practitioner to be an "examining surgeon" such authorisation shall be in Form No. 3 in the schedule annexed to these rules, and shall be framed and displayed as required by sub-section (2) of section 76.

16. On every certificate granted by an examining surgeon, the word "provisional" shall be printed or stamped in red ink at the top of each foil and counterfoil.

17. (1) The certifying surgeon at his periodical visits shall personally examine every person who is in possession of a "provisional" certificate and may confirm the certificate.

(2) A certificate issued by an examining surgeon shall be deemed to have been confirmed by the certifying surgeon only when such certificate has in the presence of the certifying surgeon been impressed with the left thumb mark of the person in respect of whom it has been granted, and when the counterfoil has been signed by the certifying surgeon, and when the certifying surgeon has deleted the word "provisional" and placed his initials against the deletion.

18. A certifying surgeon revoking a certificate under sub-section (4) of section 52, shall cause the word "revoked" to be clearly stamped or written in red ink on the foil and counterfoil.

## CHAPTER IV.

*Sanitation.*

19. (1) The inside surface of all walls of the rooms of a factory and all the ceilings or tops of those rooms (whether those walls, ceilings or tops are plastered or not) and all passages and staircases of a factory, if they have not

been painted or varnished once at least within five years, shall be lime-washed or colour-washed once at least within every twelve months, to date from the time when they were last lime-washed or colour-washed ; and shall be maintained in a cleanly state.

(2) All columns, beams, rafters, doors, window-frames and other structures within a factory, shall, if not lime-washed or colour-washed as required under sub-rule (1) of this rule, be painted or varnished at least once in every five years, to date from the time when they were last painted or varnished and shall be maintained in a cleanly state :

Provided that, in any factory or part thereof, if the Inspector is of the opinion that lime-washing, colour-washing, painting or varnishing as required by this rule, is unnecessary to satisfy the requirements of section 13, he may, by order in writing, exempt such factory or any portion thereof, from the provisions of this rule.

20. The manager of every factory not exempted under the proviso to rule 19 shall maintain a register in Form No. 4 in the schedule annexed to these rules showing the dates on which the different parts of the factory have been lime-washed, colour-washed, painted or varnished.

21. No rubbish, filth or debris shall be allowed to accumulate or to remain on the premises of a factory or within the precincts thereof, in such a position that effluvia or any other nuisance therefrom can arise within the factory.

22. The floors of the rooms of a factory and the precincts surrounding a factory shall be kept in a strictly sanitary and cleanly condition, and all drains carrying waste or sullage water shall be constructed in masonry or other impermeable material.

23. The area around the place where drinking water is supplied to the operatives shall be maintained in a clean and drained condition.

24. Every factory shall be provided with latrine and urinal accommodation on the following scale :—

(1) In factories where females are employed there shall be one sanitary convenience for every 25 females.

(2) In factories where males are employed there shall be one sanitary convenience for every 25 males ; provided that in factories where the number of males employed exceeds 100 it shall be sufficient if there is one sanitary convenience for every 25 males up to the first 100, and one for every 50 thereafter.

Every factory in which the number of males employed exceeds 50 shall be provided with urinal accommodation on a scale which shall not be less than one place for every 100 males employed.

In calculating the number of conveniences required under this rule, any odd number of persons less than 25, 50 and 100, as the case may be, shall be reckoned as 25, 50 or 100.

25. (1) The design of every sanitary convenience in a factory shall be subject to the approval of the Director of Public Health, and its construction subject to the approval of the Chief Inspector.

(2) The site or situation of every sanitary convenience shall be such that no effluvia therefrom can arise within the rooms of the factory.

(3) No sanitary convenience shall communicate with any work room except through the open air or through an intervening air space.

(4) Every sanitary convenience shall be conveniently accessible to all persons employed in the factory during the periods of their employment.

(5) Every sanitary convenience in a factory shall be under cover and so partitioned off as to secure privacy, and if for the use of females shall have proper door and fastenings

(6) Where persons of both sexes are employed, separate conveniences shall be provided for each sex and outside each latrine, at the entrace, there shall be displayed in a conspicuous position, an approved sign or a notice in the vernacular, clearly indicating the sex for which the latrine is provided. All latrines intended for females shall be so placed or so screened that the interior shall not be visible even when the door of any convenience is open, from any place where persons of the other sex have to work or pass, and, if the conveniences for one sex adjoin those for the other sex, the approaches shall be separate.

(7) Every sanitary convenience and urinal in a factory shall be kept in a clean and sanitary state, and shall be maintained in a manner approved by the Inspector.

26. In any factory in which the number of persons employed exceeds 500, hand-service latrines of the dry-bucket type shall not be permitted except with the previous permission of the Local Government This rule shall take effect on and from the 1st January 1936.

27. Where septic tank latrines are installed .—

(1) A notice-board showing the maximum number of persons for whom the tank is designed shall be fixed in a prominent position on each latrine, and a register shall be maintained showing the number of users daily.

(2) An efficient automatic recording turnstile or turnstiles shall be provided for ensuring that the total number of users admitted on any day does not exceed the number of persons for whom the tank is designed.

(3) The effluent therefrom shall conform to such standards as the Local Government may prescribe by notification in the local official Gazette.

(4) For the satisfactory disposal of the sludge or other solid matters, a pit of cubical capacity equal to the total flow of not less than an hour shall be provided to receive the solid matter. When the pit becomes full, the valves shall be closed and the solid matter and slugde shall be allowed time to settle. After the effluent is drawn off and discharged after sterilisation, the solid matter and sludge shall be disposed of by either trenching or burning it.

*Explanation.*—In this rule 'septic tank latrine'' means a sanitary convenience of the septic tank type together with its filter beds, and also activated sludge latrines and aero-bacterial latrines.

28. An Inspector of Septic Tanks appointed by the Local Government may inspect any septic tank latrine or any part of it, and may collect samples of any effluent or effluents required by him .

## CHAPTER V.

### *Ventilation and humidification.*

29. In every factory, there shall be provided for each person employed at one time in any room a breathing space of at least 500 cubic feet. For the purpose of this calculation, no height above 15 feet from the floor of such room shall be taken into consideration.

30. The manager of every factory shall maintain a register in Form No. 5 in the schedule annexed to these rules showing the measurement and cubical content of each room in the factory, the cubic space in each room occupied by the machinery or other fixtures, and the area provided for ventilating openings.

31. Every part of every factory where persons are employed shall be adequately ventilated to the approval of the Inspector.

32. In all factories engaged in the manufacture of tea, hot air from any drying machine shall not be discharged into any room of the factory other than a withering room, but shall be directly conducted to the outer air or withering room by means of trunks or casings, and such trunks or casings shall be effectively lagged with non-conducting material.

33. There shall be no artificial humidification in any room of a cotton mill whenever the wet bulb reading of the hygrometer is higher than that specified in the following schedule in relation to the dry bulb reading of the hygrometer at that time ; or as regards a dry bulb reading intermediate between any two dry bulb readings indicated consecutively in the schedule, when the dry bulb

reading does not exceed the wet bulb reading to the extent indicated in relation to the lower of those two dry bulb readings :—

Provided however that this rule shall not apply when the difference between the wet bulb temperature as indicated by the hygrometer in the department concerned, and the wet bulb temperature taken with a hygrometer outside in the shade is less than 3·5 degrees.

34. No steam shall be used for the purpose of producing artificial humidification in any department of a cotton mill the dry bulb temperature of which exceeds 85 degrees.

35. The pipes used for the introduction of steam into the atmosphere in any department of a cotton mill shall, so far as they are within the department, be as small, both in diameter and length, as is reasonably practicable and shall be effectively covered with non-conducting material to the satisfaction of the Inspector so as to minimise the amount of heat thrown off by them into the department.

36. In all departments of cotton mill wherein artificial humidification is adopted, hygrometer shall be provided and maintained in such positions as are approved by the Inspector. The number of hygrometers shall be regulated according to the following scale :—

(a) *Weaving Department.*—One hygrometer for departments with less than 500 looms, and one additional hygrometer for every 500 or part of 500 looms in excess of 500.

(b) *Other Departments.*—One hygrometer for each room of less than 300,000 cubic feet capacity, and one extra hygrometer for each 200,000 cubic feet, or part thereof, in excess of this :

Provided also that one hygrometer shall be provided and maintained outside each cotton spinning and weaving factory wherein artificial humidification is adopted, and in a position approved by the Inspector, for taking hygrometer shade readings.

37. When satisfied that the limits of humidity allowed by the schedule to rule 33 are never exceeded, the Inspector may, for any department other than the Weaving Department, grant exemption from the provision and maintenance of the hygrometer. The Inspector shall record such exemption in Form No. 6 in the schedule annexed to these rules.

38. A legible copy of the schedule to rule 33 shall be affixed near each hygrometer.

39. At each hygrometer maintained in accordance with rule 36 correct wet and dry bulb temperatures shall be recorded thrice daily during each working day by competent persons nominated by the manager and approved by the Inspector. The temperatures shall be taken between 7 a.m. and 9 a.m., between 11 a.m. and 2 p.m. (but not in the rest interval), and between 4 p.m. and 5-30 p.m. In exceptional circumstances, such additional readings and between such hours as the Inspector may specify shall be taken. The temperatures shall be entered in a Humidity Register in Form No. 7 in the schedule annexed to these rules maintained in the factory. At the end of the each month the persons who have taken the readings shall sign the register and certify the correctness of the entries. The register shall always be available for inspection by the Inspector.

40. (*1*) Each hygrometer shall comprise two mercurial thermometers one wet bulb and another dry bulb and both of similar construction, and equal in dimensions, scale and divisions of scale. They shall be mounted on a frame with a suitable reservoir containing water.

(*2*) The wet bulb shall be closely covered with a single layer of muslin, kept wet by means of wick attached to it and dipping into the water in the reservoir. The muslin covering and the wick shall be suitable for the purpose, clean and free from size or grease.

(*3*) No part of the wet bulb shall be within 3 inches of the dry bulb or less than 1 inch from the surface of the water in the reservoir and the water reservoir shall be below it, on the side of it away from the dry bulb.

(*4*) The bulbs shall be spherical and of suitable dimensions and shall be freely exposed on all sides to the air of the room.

(*5*) The bores of stems shall be such that the position of the top of the mercury column shall be readily distinguishable from a distance of 2 feet.

(*6*) Each thermometer shall be graduated so that accurate readings may be taken between 50 and 120 degrees.

(*7*) Every degree from 50 degrees up to 120 degrees shall be clearly marked by horizontal lines on the stem; each fifth and tenth degree shall be marked by longer marks than the intermediate degrees and the temperature marked opposite each tenth degree, *i.e.*, 50, 60, 70, 80, 90, 100, 110 and 120.

(*8*) The markings as above shall be accurate, that is to say at no temperature between 50 and 120 degrees shall the indicated reading be in error by more than two-tenths of a degree.

(*9*) A distinctive number shall be indelibly marked upon each thermometer.

(*10*) The accuracy of each thermometer shall be certified by the National Physical Laboratory, London, or by a competent authority appointed by the Local Government, and such certificate shall be attached to the Humidity Register.

41. Each thermometer shall be maintained at all times during the period of employment in efficient working order, so as to give accurate indications and in particular:—

(*a*) The wick and the muslin covering of the wet bulb shall be renewed once a week.

(*b*) The reservoir shall be filled with water which shall be completely renewed once a day. The Chief Inspector may prescribe the use of distilled water or pure rainwater in any particular mill or mills in certain localities.

(*c*) No water shall be applied directly to the wick or covering during the period of employment.

42. If an Inspector gives notice in writing that a thermometer is inaccurate, it shall be replaced by another of certified accuracy within one month of the date of such notice, unless after examination by the competent authority specified under sub-rule (*10*) of rule 40, a fresh certificate of accuracy has been obtained within that time, in which case the new certificate shall be attached to the Humidity Register.

**43.** (*1*) **No hygrometer shall be affixed to a wall, pillar or other surface unless protected therefrom by wood or other non-conducting material at least half an inch in thickness and distant at least one inch from the bulb of each thermometer.**

(*2*) Each hygrometer shall be so mounted that the accuracy of the dry bulb temperature shall not be affected by the proximity of water in the reservoir.

44. No readings shall be taken for record on any hygrometer within 15 minutes of the renewal of water in the reservoir.

45. (*1*) In every factory a supply of water fit for drinking, and consisting of at least as many gallons as there are persons employed in the factory, shall be provided daily free of cost.

(*2*) Such supply shall be derived either from a public or private supply of efficiently filtered drinking water, or from one or more wells or specially reserved tanks so situated as not to be possible of pollution or contamination by organic matter or other impurities.

(*3*) When the drinking water is obtained from an intermittent public water-supply, each factory shall be provided with a storage of water of not less than one gallon per head of persons employed.

(*4*) The Inspector or any other persons authorised by the Local Government in this behalf may, at any time, in order to satisfy himself that the water supplied is fit for drinking, take samples for analysis.

46. In every factory in which any process involving contact by the workers with lead or any other injurious or obnoxious substances is carried on, there shall be provided and maintained in a cleanly state and in good repair for the use of all persons employed in such process, the following :—

(*1*) (*a*) A trough with a smooth impervious surface fitted with a waste-pipe without plug, and of such length as to allow at least two feet for every five such persons employed at any one time, and having a constant supply of water from taps or jets above the trough at intervals of not more than two feet ; or

(*b*) at least one wash-basin for every five such persons employed at any one time, fitted with a waste-pipe and plug and having a constant supply of water laid on.

(*2*) A sufficient supply of soap and a nail brush at each tap, jet or wash-basin.

47. In every factory in which washing facilities in accordance with the requirements of rule 46 are provided for persons employed in any process involving contact with lead or any other injurious or obnoxious substance, each such worker shall be allowed, for washing, before each of his rest

intervals and before the end of his day's work, at least ten minutes in addition to his specified rest intervals, and a notice to this effect shall be affixed in a conspicuous position in each department concerned.

## CHAPTER VI.

### *Safety.*

48. In every factory, all buildings, walls, chimneys, masts, bridges, tunnels, roads, galleries, floors, platforms, stagings, and all structures, whether of a permanent or temporary character, shall be so designed, constructed and maintained as to involve no danger to human life or safety :

Provided that the Inspector shall not accept any such structure if it is designed or constructed so as to contravene the provisions of any other Act.

49. In every factory, where, within the precincts, there are railways, or other electrical or mechanical means of transport, such railways or means of transport shall be designed, maintained and operated in such a manner as to satisfy the Inspector that there is no danger to human life and safety from them :

Provided that the Inspector shall not accept any such railways or means of transport if they are so designed, maintained and operated as to contravene the provisions of any other Act.

50. Every opening, in the ground or in a floor, which by reason of its depth, situation, construction or contents, could cause personal injury, shall be securely fenced.

51. In every factory, prime movers or other machinery, steam-boilers or other vessels subject to pressure, electrical equipment, and all tanks and mains, together with the fittings of each of the aforesaid, shall be free from structural defects so that there may be no danger to human life or safety. They shall also be maintained sufficiently free from deterioration, and shall be operated (or attended) by persons of sufficient experience and skill, to satisfy the Inspector that there is no danger to human life or safety from them :

Provided that the Inspector shall not accept any plant or machinery mentioned which is constructed, attended to or operated, so as to contravene the provisions of any other Act.

52. (*1*) In every factory, all moving parts of machinery shall be securely fenced or guarded, unless they are so situated that they are in the opinion of the Inspector incapable of causing injury to workers.

(*2*) All fencing and guards shall be strong and rigid and constructed to the approval of the Inspector.

(*3*) All fencing shall be so placed that it is impossible for any person to pass between the fencing and the moving part and shall also prevent contact of any person or his clothing with the moving machinery :

Provided that if a machine contains a safety device which (*a*) makes it impossible to expose a dangerous part of machinery whilst in motion or (*b*) stops the machine forthwith in case of danger, the machine shall be deemed to be securely fenced, if such devices are fitted and maintained in efficient working order.

53. If in any case it is represented to the Inspector and agreed to by him in writing that fencing would unduly obstruct or interfere with a manufacturing process, or would otherwise be impracticable, such other protection or other measure as the Inspector may direct, shall be provided instead of fencing.

54. Suitable striking gear or other efficient mechanical appliances shall be provided and used to move driving belts on fast and loose pulleys and any such gear or appliances shall be so constructed as to prevent accidental restarting of the machinery :

Provided that where the Chief Inspector is satisfied that such striking gear or appliances are not necessary or are impracticable for any class of machines, he may by order in writing exempt such class of machines from this requirement.

55. In every factory all electrical equipment shall be sufficient in size and power for the work it is called upon to do and so constructed, installed, protected, worked, and maintained as to prevent danger to human life and safety :

Provided that where automatic mechanism is installed which renders "dead" any electrical equipment on the occurrence of danger, such mechanism shall be taken into account by the Inspector when considering the adequacy or otherwise of the protection furnished :

Provided also that in no case shall the Inspector accept as adequate any conditions or combination of conditions which are subject to objection under any other Act.

56. When any plant, machinery, apparatus, or fittings in a factory are not safeguarded from danger to human life, and safety, as laid down in rules 52, 53, 54 and 55, such plant, machinery, apparatus or fittings shall be deemed not to be adequately fenced within the meaning of sub-section (*1*) of section 24 of the Act.

57. (*1*) All important pulleys shall be provided with belt hangers or perches.

(*2*) Every person who goes to replace a driving belt or to oil bearing or shafts, or to work at a height near moving parts of machinery not normally dangerous by reason of that height, shall wear tight trousers, and shall not wear any loose clothing. A dhoti or loin cloth wrapped round the body in any manner shall be deemed to be loose clothing within the meaning of this rule.

(*3*) Removing, replacing or adjusting of fast running driving belts shall be done only by experienced men specially trained for the work.

(4) When the main belts of any machinery have to be adjusted the machinery shall be stopped and shall not be set in motion again until such belts have been completely adjusted.

(5) All ladders used in removing, replacing, or adjusting driving belts, and in the oiling and attending to overhead shafting, shall be provided with hooks or an effective non-skid device.

(6) Where required by the Inspector, service platforms and gangways shall be provided for overhead shafting.

58 In every factory where the process of manufacture necessitates the use of inflammable material, efficient means of subduing outbreaks of fire shall be installed, maintained and kept ready for immediate use.

59. The manager of every factory shall cause to be exhibited, in English and in the language of the majority of the operatives, a notice prohibiting smoking or the use of naked lights, or both, in all places where they would be dangerous, or where the Inspector may require, and shall take all other reasonable precautions against fire.

60. When in any factory there occurs any explosion, fire, collapse of buildings or serious defects in the machinery or plant, which might have caused or might cause injury to persons, such occurrence shall be reported by the manager of the factory within five hours of its occurrence to the authorities mentioned in clauses (1) and (2) of rule 61.

## CHAPTER VII.

### *Accidents.*

61. *Fatal and Serious.*—When there occurs in any factory an accident to any person which results in (a) death, or (b) such injury that there is no reasonable prospect that he will be able to resume his employment in the factory within 20 days, such accidents shall be called in all prescribed communications "Fatal" or "Serious" as the case may be, and a notice of the occurrence shall be sent forthwith by the manager of the factory either by telephone, or telegram or special messenger to—

(1) the Inspector notified for this purpose,

(2) the District Magistrate, and

(3) in the case of fatal accidents only, the Officer-in-charge of the Police Station within the local limits of which the factory is located.

Reports sent by special messenger shall be in Form No. 8 in the schedule annexed to these rules and those sent by telephone or telegram shall be confirmed by a written report in that form.

62. *Slight.*—When there occurs in any factory an accident to any person less serious than those described in rule 61, but which prevents or is likely to

prevent the person from resuming his employment in the factory within 48 hours after the accident occurred, such accident shall be recorded by the manager of the factory and reported by him in Form No. 8 in the schedule annexed to these rules as soon as practicable, but in any case within 60 hours of its occurrence, to the authorities mentioned in clauses (*1*) and (*2*) of rule 61. Such accidents shall be called in prescribed communications "Slight accidents".

63. (*1*) When an accident which has been reported to the Inspector as either "Serious" or "Slight" afterwards proves to be "Fatal", the manager of the factory shall make the necessary correction in a supplementary report which shall be sent forthwith to the authorities mentioned in clauses (*1*), (*2*) and (*3*) of rule 61.

(*2*) When an accident which has been reported to the Inspector as "Slight" afterwards proves to be "Serious", or when one reported as "Serious" afterwards proves to be "Slight", the manager of the factory shall make the necessary correction in a supplementary report which shall be sent forthwith to the authorities mentioned in clauses (*1*) and (*2*) of rule 61.

64. Where loss of life has immediately resulted from an accident, the place where the accident occurred shall be left as it was immediately after the accident, until the expiration of at least three days after the sending of the notice of the accident required under rule 61, or until the visit to the place by an Inspector, whichever first happens, unless compliance with this rule would tend to increase or continue the danger or would seriously impede the carrying on of business at the factory.

65. In every factory the following requirements shall have effect :—

## TREATMENT OF MINOR INJURIES.

### A SCRATCH OR SLIGHT WOUND.

Treat every scratch or slight wound *immediately*.

Apply the Iodine Solution* over the broken surface *once* and allow to dry.

Do not attempt to wash the wound at all.

Apply a "*Sterilised Dressing.*"† A bandage can be applied over this dressing if necessary. Do not touch the part of the sterilised dressing which is put next to the wound.

*Blood poisoning or septic infection* of a wound is caused by introducing germs into it. A sterilised dressing should, therefore, always be used as it is free from germs.

Iodine sterilises the wound and makes any dirt harmless.

Hands are never free from germs, and should never touch the wound or the part of the dressing to be applied to the wound.

### A BURN OR SCALD.

Cover the injured part with a dry "Sterilised Burn Dressing."‡ *Note*—Ointment or oil, such as carron oil, should not be used for a First Aid Dressing. Carron oil is not sterile. Its use may also interfere with any subsequent treatment by a doctor or in the ambulance room.

Do not prick a blister, except under medical advice; it is no part of the First Aid Treatment.

### AN ACID BURN.

Flood the burn with cold water.

Sprinkle it (after flooding) with powdered Bicarbonate of Soda.

Apply a "Sterilised Dressing" of suitable size.

*Iodine* should *never* be used for *Burns* or *Dermatitis*.

---

* A 2 per cent. solution of Iodine in Rectified Spirit B.P.

† "Sterilised Dressing." A dressing put up in a separate packet and rendered free from germs by a special process.

‡ "Sterilised Burn Dressing." A similar dressing as above prepared specially for burns.

## EYE INJURIES.

***Prevention is better than cure.***

Therefore, if your work entails danger to the eyes, *wear goggles* Goggles have saved hundreds of eyes ; *thousands* have been lost for want of them.

***A Foreign Body in the Eye.***

Apply two or three eye drops* to the affected eye-ball.

Cover with an eye-shade

Go to a doctor *at once*.

Do not try to remove any particle which cannot be brushed away.

*Note* —The treatment recommended should be carried out *immediately* The longer the delay the greater the risk of Blood Poisoning.

It is First Aid treatment and is not intended to replace any subsequent treatment which may be necessary by a doctor or in the ambulance room †

---

* Eye Drops—

| | | |
|---|---|---|
| Cocaine | .. | 0 5 per cent. |
| Hyd. Perchlor in castor oil | .. .. | 1 in 3,000. |

Instruction to chemist for making eye drops —Weigh 95 grammes of castor oil into a flask capable of holding twice the quantity Add 0 5 gramme of powdered cocaine Warm on a water bath till dissolved While the solution is still warm (but not hot) add one cubic centimetre of a solution containing 3 3 grammes of mercuric chloride in 100 cubic centimetres of absolute alcohol Mix the solutions by rotating the flask

About half an ounce, or 15 c c , of this solution should be supplied in a bottle from the cork of which a camel-hair brush is pendent in the fluid.

First Aid boxes as obtained from the suppliers will nor contain the eye drops, as a cocaine preparation can only be dispensed under prescription from a registered medical practitioner It will be necessary, therefore, for the factory manager to obtain a prescription from the Civil Surgeon or other registered medical practitioner, and to purchase the eye drops separately.

Dacca, the 10th November 1934.

### Monthly Weather and Crop Report of Bengal for October 1934.

II. *Progress of agricultural operations.*—Field operations for early spring crops commenced in places.

III. *State of standing crops.*—The rainfall in October materially helped the development of transplanted winter paddy.

IV. *Prospects and probable outturn.*—The prospects of standing crops were generally favourable. The outturn of sugarcane was estimated at 80 per cent. of the normal.

V. *Damage to standing crops.*—No damage to standing crops was reported from any part of the province, except in places of Nadia, Murshidabad, Jessore, Dacca, Chittagong, Tippera and Tripura State, where the crops were somewhat affected by flood.

VI. *Condition of agricultural stock.*—The condition of live-stock was, on the whole, fair. Stray cases of cattle disease were, however, reported from seven districts of the Presidency.

VII. *Failure of pasturage and fodder.*—Insufficiency of fodder was reported from parts of Nadia, Midnapore and Faridpur.

VIII. *Prices of food-grains.*—During the second fortnight of the month, the retail prices of common rice of the cheapest quality rose in four districts, fell in nine and remained stationary in the rest of the Presidency. The price ranged from 9½ seers per rupee at Jalpaiguri to 16 seers per rupee at the Chittagong Hill Tracts.

IX. *Condition of agricultural population.*—The condition of agricultural population was, on the whole, fair, except in parts of Murshidabad and Birbhum, where distress continues.

RESOLUTION.

No. 603.—The Governor-General in Council hereby makes the following rules for the regulation of admission to the Indian Military Academy by examination in India which will be held in March/April, 1935:—

RULES.

1. (*i*) A candidate who desires to be examined in India shall apply to be admitted to the examination before such date and in such form as the Public Service Commission may prescribe. The application shall be made through the Collector or Deputy Commissioner of the district in which his parents reside at the time of the application, or have previously resided for a period of not less than three years, or in which he has himself resided, otherwise than as a student at an educational institution only, for a like period.

(*ii*) In the case of Calcutta applications shall be submitted through the Commissioner of Police.

(*iii*) Cadets of the Prince of Wales's Royal Indian Military College, Dehra Dun, shall submit their applications through the Principal of the College.

(*iv*) A candidate resident in an Indian State shall submit his application through the Durbar, who will forward it to the Political Officer or Agent.

(*v*) No candidate shall make more than one application in respect of this examination.

(*vi*) A candidate shall, except in very exceptional circumstances, appear personally before the District Officer or the Political Officer or Agent who signs the attestation form.

2. A candidate must be an unmarried man and either:—

(*a*) a British subject of Indian domicile whose father (if alive) is a British subject or, a subject of a State in India, or (if dead) was at the time of his death either a British subject or a subject of a State in India or a person in the permanent service of the Crown or a person who had retired from that Service; or

(*b*) a Ruler or a subject of a State in India.

Provided that in the case of a British subject the requirements of this rule may be waived by the Secretary of State in Council if he is satisfied that their observance would occasion exceptional hardship, and that the candidate is so closely connected by ancestry and upbringing with His Majesty's dominions as to justify special treatment.

Provided also that a Ruler or a subject of a State in India cannot be appointed unless he has obtained the declaration required under section 96-A of the Government of India Act.

3. A candidate must furnish a declaration from his father or guardian, in the form prescribed, that the latter is in a position, and will be prepared to discharge the financial obligations attaching to the candidate's training at the Indian Military Academy, Dehra Dun. If such candidate is selected for admission, the parent or guardian will be required to covenant with the Secretary of State for India in Council that in the event of failure to comply with certain contingencies set forth in an Indenture relating to the completion of the course at the Indian Military Academy, and thereafter, the acceptance of a commission in the Indian Land Forces, and the period he is required to hold such a commission, he will pay the full cost which the Government of India shall have expended on the education of the cadet at the Academy.

4. The maximum number of candidates to be admitted to the examination may, in the discretion of the Governor-General in Council, be limited to such number as the Governor-General in Council may decide. If a limit is imposed and the number of candidates exceeds that limit, the Public Service Commission shall select from among the applicants those who shall be admitted to the examination and shall have regard in so doing to the suitability of the applicants for employment as commissioned officers, in the Indian Army.

5. A candidate for this examination must attain the age of 18, and must not attain the age of 20, by the first day of May 1935.

6. A candidate must be in good mental and bodily health and free from any physical defect likely to interfere with the efficient performance of the duties of a commissioned officer in the Indian Army. A candidate who, after examination by a Medical Board, is found not to satisfy these requirements will not be accepted for admission to the Academy.*

* Only successful candidates will be medically examined. Candidates are recommended to consult a Civil Surgeon as to their physical suitability before entering for the examination.

7. A candidate must satisfy the Public Service Commission that he is suitable in all respects for employment as a commissioned officer in the Indian Army.

8. No candidate shall be admitted to the examination unless he holds a certificate of admission from the Public Service Commission.

9. No recommendations except those invited in the form of application will be taken into consideration. Any attempt on the part of a candidate to obtain support for his application by other means may disqualify him for admission.

10. (a) A candidate who competed in the examination held in October 1934, and failed to obtain a qualifying mark, will not be allowed to compete at the examination to be held in March/April, 1935, unless he is ineligible by age to compete at any later examination.

(b) No candidate who fails to obtain a qualifying mark at this examination will be allowed to compete at the next examination unless that examination is the last at which he would be qualified by age to compete.

11. Candidates must pay the following fees:—

(i) Rs. 7-8-0 with the application form,

(ii) if accepted for admission to the examination, Rs. 50 immediately after the receipt of the certificate of admission.

No claim for a refund of these fees will be entertained.

12. (i) The examination will include the following subjects and the maximum number of marks obtainable for each subject is as follows:—

Part I.—Obligatory:—

| | | Max. Marks. |
|---|---|---|
| 1. | Interview and Record ... | 500 |
| 2. | English Language ... | 300 |

| (a) | French or German ... | 300 |
| (b) | Lower Mathematics ... | 300 |
| (c) | Higher Mathematics ... | 300 |

| (e) | Indian History ... | 300 |
| (f) | Physics ... | 300 |
| (g) | Chemistry ... | 300 |

Part III.—Subsidiary subjects of which one and [except as provided in clause (ii) below] not more than one, must be taken:—

| | | Max. Marks. |
|---|---|---|
| (a) | Outlines of English History from 1485 ... | 150 |
| (b) | Elementary Science ... | 150 |

A candidate who offers Physics or Chemistry must satisfy the Public Service Commission that he has had suitable laboratory training totalling 80 hours for each subject taken. A candidate who takes Elementary Science in Part III may not offer Physics or Chemistry in Part II.

13. No candidate will be admitted to the Indian Military Academy who obtains less than 175 marks for Interview and Record or less than 578 marks in the other subjects taken by him in Parts I to III (these marks being 35 per cent. in each case) or less than 1,075 marks in all the subjects taken in Parts I, II and III.

14. A candidate who desires a commission in the Artillery, Engineers or Signals must take lower Mathematics and Physics at the entrance examination and obtain at least 40 per cent. of the maximum marks in each of these subjects; but a candidate who obtains less than 40 per cent. in one or both of those subjects will not thereby be disqualified for admission to the Academy if he obtains a sufficient aggregate of marks to qualify him under Rule 13, nor will he be ineligible for a commission in any branch of the Indian Army other than the Artillery, Engineers or Signals. Candidates who obtain the requisite 40 per cent. of marks will not necessarily be selected to attend the special technical classes at the Academy. Selection will be made by the Commandant during the progress of the course.

15. From the marks assigned to candidates in each subject such deduction will be made as the Public Service Commission may consider necessary in order to secure that no credit is allowed for merely superficial knowledge.

16. If a candidate's handwriting is not easily legible a deduction, which may be of considerable amount, will be made on this account from the total marks otherwise accruing to him.

Ordered, that the Resolution be published in the *Gazette of India*.

WHEREAS it is expedient to amend the Bengal, Agra and Assam Civil Courts Act, 1887, in its application to Bengal in the manner hereinafter appearing; XII of 1887.

It is hereby enacted as follows :—

Short title, extent and commencement.

**1.** (*1*) This Act may be called the Bengal, Agra and Assam Civil Courts (Bengal Amendment) Act, 193 .

(*2*) It extends to the whole of Bengal.

(*3*) It shall come into force on such date as the Local Government may, by notification in the local official Gazette, appoint.

Application of Act.

**2.** The Bengal, Agra and Assam Civil Courts Act, 1887, hereinafter referred to as the said Act, shall, in its application to Bengal, be amended in the manner hereinafter provided.

Amendment of section 17.

**3.** In sub-section (*2*) of section 17 of the said Act, for the words and figures "in section 623 or section 649 of the Code of Civil Procedure" the words and figures "in sections 36, 37 and 141 of, and rule 1 of Order XLVII in Schedule I to the Code of Civil Procedure, 1908" shall be substituted.

## STATEMENT OF OBJECTS AND REASONS.

In Chapter VII of their Report the Civil Justice Committee recommended that, having regard to the improved capacity of the subordinate judicial officers and in the interests of efficiency and economy it would be desirable to amend the Civil Courts Act so that individual selected Munsifs of capacity and experience might be vested on the recommendation of the High Court with power to try original suits up to the value of Rs. 5,000 and that the Small Cause Court jurisdiction should be raised in the case of selected Munsifs and Subordinate Judges to Rs. 500 and Rs. 1,000, respectively. The present Bill has been drafted for the purpose of giving effect to these recommendations and the opportunity has been taken to introduce certain formal amendments for the purpose of bringing the Civil Courts Act up to date.

*Member-in-charge.*

CALCUTTA :

---

## Notes on Clauses.

**Clauses 3, 4 and 8.**—The proposed amendments substitute for references to the old Code of Civil Procedure the references to the corresponding provisions of the existing Code.

**Clause 5.**—Under the existing law the pecuniary jurisdiction of the selected Munsifs is limited to Rs. 2,000 only. The proposed amendment makes it possible to give effect to the recommendation of the Civil Justice Committee to raise the limit to 5,000 rupees.

**Clause 6.**—Sub-clause (*1*) substitutes the reference for the old Indian Succession Act, 1865 and the Probate and Administration Act, 1881 by the reference to the new Indian Succession Act, 1925.

Sub-clause (*2*).—As the practice of execution of civil decrees by the Collectors does not obtain in Bengal, clause (*e*) of section 23(*2*) is being repealed.

**Clause 7.**—It is proposed to raise the Small Cause Court powers of Subordinate Judges to Rs. 1,000 and of Munsifs to Rs. 500 in accordance with the recommendation of the Civil Justice Committee.

# Biennial Resolution on the working of Union Boards during the years 1931-32 and 1932-33.

## GOVERNMENT OF BENGAL.

### Local Self-Government Department.

### Local Self-Government (Local Boards).

CALCUTTA, THE 24TH NOVEMBER 1934.

RESOLUTION—No. 5392 L.S.-G.

**Minister-in-charge: The Hon'ble Sir Bijoy Prosad Singh Roy, Kt.**

During the biennium under review, the number of union boards rose from 4,510 to 4,701. Of the 191 new union boards formed during this period, 124 were in Bakarganj, and 52 in Rajshahi, the remainder being distributed among the districts of Mymensingh, Faridpur and Khulna.

**Franchise.**—The number of voters on the union board electoral rolls rose from 2,366,199 in the year 1930-31 to 2,435,342 in 1931-32 and to 2,570,800 in 1932-33. The total number of members of union boards increased from 40,241 in 1930-31 to 41,921 in 1932-33. In most cases the elections were conducted smoothly and they aroused keen interest.

It is satisfactory to observe that the recent civil disobedience movement made little impression on these rural self-government institutions. On the contrary, the union boards would appear to have exerted a distinctly healthy and steadying influence Generally speaking, there was much less political trouble in areas covered by union boards than in tracts where there was none. In a few union boards in the Burdwan, Bankura, Hooghly and Dinajpur districts, the elections were interfered with by anti-Government propaganda and recourse had to be taken to section 6(4) of the Village Self-Government Act. Even in these areas, however, the popularity of the union boards was amply evidenced by the large number of representations for appointment as members of union boards made to the District Officers and Commissioners throughout the period of the civil disobedience movement.

**Financial statistics.**—The total income of union boards excluding the opening balance rose from Rs. 82,10,000 in 1930-31 to Rs. 86,51,000 in 1931-32 and to Rs. 88,25,000 in 1932-33. Of this latter amount Rs. 66,46,000 was realised on account of union rates, Rs. 2,36,000 as rents of chaukidari chakran lands, Rs. 1,86,000 from pounds and ferries, and Rs 1,96,000 and Rs. 2,80,000 respectively as grants from district boards under sections 33 and 45 of the Village Self-Government Act. During the year 1932-33 the total income derived from the union rate levied under section 37(*b*) of the Act increased by Rs. 99,000, while receipts under the chaukidari rate increased by Rs. 4·86 lakhs. The increase in the receipts under both these heads in the face of continued economic strain, affords striking evidence of the popularity of these village self-government institutions as well as of the continued growth of a spirit of practical self-help among the rural population.

The total expenditure of union boards rose from Rs. 85,18,000 in 1930-31 to Rs. 87,53,000 in 1931-32 and to Rs. 88,62,000 in 1932-33 of which Rs. 49,74,000, *i.e.*, more than half was spent on the chaukidars. Of the expenditure incurred in carrying out the miscellaneous purposes of the Act during the year 1932-33 about Rs. 6,11,000 were spent on roads (out of which original works represented about Rs. 2,21,000), Rs. 5,50,000 on water-supply, Rs. 1,32,000 on drainage and conservancy, Rs. 3,41,000 on schools and Rs. 1,26,000 on dispensaries. The most notable decrease in expenditure on works of public utility during 1932-33 was Rs. 83,000 on water-supply.

**Individual activities of Union Boards.**—As observed in the resolution for 1930-31, this review of the individual activities of union boards is not comprehensive, depending as it does on the divisional reports, some of which give more details of the activities of particular union boards than others. Besides those mentioned in this paragraph, therefore, there may be other union boards equally deserving which have not been mentioned in the divisional reports. The Lillooah union board spent Rs. 1,116 in 1931-32 for the construction of a new road and made public street lighting arrangements with electricity at an annual cost of Rs. 600 with effect from April 1931. The Domjur and Lillooah union boards (in Howrah district) collected Rs. 1,261 and Rs. 1,872 respectively in 1932-33 as subscriptions from the local public for metalling four roads. The Benapur, Basudebpur, Harishpur and Chandipur union boards (all in the Howrah district) spent considerable sums on drainage, the Benapur union board alone spending Rs. 1,412 in 1932-33 for the construction of the Birkul sluice. During the period under review the union boards of the Sadar subdivision of Howrah sank 60 and those of the Uluberia subdivision sank 35 tube-wells with the help of contributions from the rural water-supply grant placed by Government at the disposal of the Commissioner. The Sashaty union board (Howrah) exacavated in 1932-33 a tank at a cost of Rs. 400 and paid for it entirely out of its own funds. Some union boards in the Howrah district sank tube-wells entirely out of their own funds in the year 1931-32 and of these Udainarainpur is reported to have sunk 6 tube-wells at a cost of Rs. 1,345. A number of union boards in the Burdwan district, notably Baghar, Narugram, Simulia, Pila, Bogpur and Kaichar, spent about Rs. 1,000 each on water-supply in 1932-33.

The two Biss type schools established by the Baikunthapur union board and another by the Atghoria board in the Burdwan district, worked well. The free lower primary schools at Raipur and Chhatna in the district of Bankura were maintained entirely by the union boards, while the Ajodhya union board (Bankura) maintained a free primary and music school, and the Dwarika (Bankura) union board maintained a free primary school for boys. The Krishnadevpur union board (Burdwan) continued to maintain a free primary school on a voluntary basis. In the Birbhum district 3 primary schools in the Sadar circle, 4 in the Dubrajpur and 5 in the Mollarpur circles were maintained by union boards, while the Ghursa union board maintained a girls' muktab, the Sainthia, Sultanpur, Chinpai and Hetampur union boards maintained girls' schools and the Sultanpur, Khoyrasole and Gohaliara union boards maintained night schools. In 1931-32 new dispensaries were started by the Bagnapara (Burdwan), Pakhanna (Bankura), Begampur (Hooghly), Maju (Howrah), Ramnagar, Panchgram, Bardhanpur and Manikchak union boards (in Murshidabad district). Most of them received the Government subsidy of Rs. 250 or Rs. 500 a year according as the dispensary was a village or thana dispensary. The union boards at Krishnadevpur and Kandra (both in the Burdwan district) constructed buildings for such dispensaries The Saltora union board (Bankura) started a leper clinic and spent Rs. 1,596 on dispensaries during the year 1932-33. In 1931-32 the Gupti union board (Tippera), and in 1932-33 the Hajiganj (Tippera) and Ramchandrapur (Tippera) union boards spent more than Rs. 2,000 each on works of public utility; while the Laksam union board in 1931-32 and the Hajiganj union board in 1932-33 (both in Tippera) realised under section 37(*b*) Rs. 1,115 and Rs. 1,190, respectively, for expenditure on such works. In the Noakhali district laudable arrangements were made in 1932-33 for conservancy, supply of filtered water and street lighting by the Banchhanagar union board. The Basikpur union board also in this district constructed a good motorable road, about two miles long, mainly with the help of local contributions. During 1932-33 several union boards in the district of Bogra made arrangements for conservancy and street lighting, and the Domar and Nilphamari union boards in Rangpur inaugurated street lighting in their respective towns. The Nilphamari and Saidpur union boards in Rangpur and the Ishurdi union board in Pabna continued to maintain systems of conservancy.

While appreciating the useful work done by these boards the Minister regrets to note that there were several instances of laxity in realising union rates resulting in delayed payments to chaukidars and dafadars, defalcations and irregular expenditure from union funds and inequitable imposition of union rates. He hopes that with the growth of administrative experience, the union boards will avoid such irregularities in future.

**Working of Union Benches and Courts.**—The reports from the districts show that union benches are gradually getting more popular. Their constitution is also being viewed with greater appreciation by the public. Substantial relief is reported to have been afforded to Magistrates by these benches in most of the districts. The total number of benches working in 1932-33 was 1,177 against 987 in 1931-32 and 888 in 1930-31. The number of cases dealt with by these benches in 1932-33 was 68,600, showing an increase of 8,321 over that of 1931-32. The union courts are reported generally to be gaining in popularity and affording an increasing measure of relief to the Munsifs in the majority of the districts. The total number of courts working during the year 1932-33 was 999 against 776 in the year 1930-31. The number of suits instituted in these courts in 1932-33 was 138,392, showing an increase of 24,634 over that of the previous year. Of the total number of applications for disposal under the proviso to section 88 of the Village Self-Government Act during the year 1932-33, 62 cases were either dismissed or not prosecuted; the lower courts' orders were confirmed in 186 cases, modified in 28 cases and reversed in 123 cases while 36 cases were remanded for retrial.

**Relations between District Boards and Union Boards.**—The relations between the district boards and the union boards were on the whole satisfactory. The financial assistance rendered by the district boards was, however, still meagre in some districts (*e.g.*, Murshidabad, Bankura, Mymensingh, Pabna). The total amount paid by district boards to union boards rose from Rs. 4,77,388 in 1930-31 to Rs. 5,12,882 in 1931-32, but fell to Rs. 4,76,924 during 1932-33. This latter sum included Rs. 1,96,444 paid to the boards under section 33 of the Village Self-Government Act for the management of institutions and works transferred to them by district boards. The total income received by union boards from pounds which is in effect a transfer of revenue from district boards to union boards fell from Rs. 2,07,983 in 1930-31 to Rs. 1,95,141 in 1931-32 and again to Rs. 1,82,853 at the end of the period under review. The proportion between the grants made by the district boards to union boards under section 45 of the Village Self-Government Act and the rates raised by union boards under section 37(*b*) of the Act continued to present the same extremes of variability as noticed in the resolution for 1930-31. At the one extreme the Birbhum District Board made grants of Rs. 3,753 only against Rs. 49,494 realised from union rates in 1932-33, while at the other the Khulna District Board made grants amounting to Rs. 36,630 against Rs. 16,863 only raised from union rates. Generally speaking, the union boards were satisfied with the grants made by district boards, but in certain cases there was a feeling that but for the compulsory provision of section 45 in the Act the district boards would have paid nothing at all.

The Minister has noticed with pleasure the encouraging movement initiated in certain districts for popularising the objects of the Village Self-Government Act by holding periodical conferences of presidents and members of union boards. He was also gratified to note the success of the first general conference of presidents of union boards held under his chairmanship in Calcutta in December 1931, and opened by His Excellency the Governor of Bengal. The conference, which was attended by over 100 presidents of union boards, aroused much interest and it is to be hoped that it will develop into a periodical feature of the local self-government system.

By order of the Government of Bengal

(Ministry of Local Self-Government),

"(qq) regulating the procedure for the transfer of criminal cases from union benches and of civil suits from union courts and for the retrial of civil suits under the proviso to section 88;".

## STATEMENT OF OBJECTS AND REASONS.

The present Bill for the amendment of the Bengal Village Self-Government Act, 1919, owes its origin to the Conference of presidents of union boards held at the Town Hall, Calcutta, in December 1931, many of the recommendations of which have been embodied in it. Opportunity has also been taken to remove practical difficulties experienced in the working of the Act and to effect specific administrative improvements. The main features of the Bill are summarised below :—

(1) **Constitution.**—The term of office of members of union boards has been extended from 3 to 4 years and provision has been made to bar the intervention of Civil Courts in election disputes, as has recently been done in the case of district and local boards and municipalities.

(2) **Franchise.**—With a view to widening the electorate, the minimum franchise qualifications have been lowered and educational qualifications have been included amongst the qualifications for the franchise.

Provision has been made on the lines of sub-section (2) of section 22 of the Bengal Municipal Act, 1932, to disqualify persons convicted of offences involving moral turpitude from being members of union boards.

(3) **Union Benches and Courts.**—On the recommendation of the Civil Justice Committee, power has been taken to confer on selected union courts and benches, subject to certain safeguards, exclusive jurisdiction in any or all classes of suits or cases triable by them. Provision has been made for the trial by a union bench of cases instituted by the inhabitants of a union where there is no bench. Power has also been taken by the Local Government to authorise selected union benches to impose fine up to Rs. 50 and in default imprisonment for a period not exceeding 14 days.

The power of union courts has been enlarged so as to enable them to try suits for damage by cattle-trespass.

Union benches have been empowered to allow cases to be compromised and to grant compensation out of the fine realised to complainants and also to release first offenders on probation of good conduct.

(4) **Industries.**—Union boards have been empowered to undertake and carry out measures for the improvement and development of cottage industries and to employ the requisite staff for the purpose.

(5) **Sanitation.**—Provision has been made for the prompt reporting of the outbreak of epidemic diseases within a union and for the payment of rewards to medical practitioners for making such reports. Union boards have also been authorised to employ a health staff either singly or jointly.

The provisions of section 34 relating to offensive and dangerous trades have been made applicable to all union boards.

(6) **Education.**—Provision has been made for the payment by a union board of grants-in-aid to primary schools and to agricultural and technical schools located within the union.

(7) **Control.**—As an alternative to supersession of a union board in case of incompetence or wilful neglect of duty, power has been taken for the Divisional Commissioner to dissolve a board and order a general election with the approval of the Local Government.

Under the existing law it is not possible to remove an undesirable member of a union bench or court without superseding the bench or court. Provision has been made for such removal.

(8) Some of the other changes which it is proposed to make in the existing law and consequential changes are explained in the subjoined notes on clauses.

**Notes on Clauses.**

**Clause 3.**—Sub-clause (*5*) gives a new meaning for the word "resident" as used in section 7 so as to make the intention clearer.

**Clause 5.**—Proposed new section 10A *inter alia* excludes an officer and servant of the board from being a member of a union board.

**Clause 7.**—The amendment proposed is intended to make the intention clearer.

**Clause 8.**—Proposed new section 17B makes it clear that the decision of the district magistrate in matters relating to elections shall be final and shall not be questioned in any court, *cf.* section 49 of the Bengal Municipal Act, 1932.

Proposed new section 17C provides for the validation of acts and proceedings of a union board.

**Clause 9.**—The amendment in sub-clause (*1*) makes necessary changes due to the creation of the "Indian Navy" and "Air Force".

**Sub-clause (2).**—Proposed new clause (*viia*) provides that chaukidars shall give immediate information to the president of the outbreak of any epidemic disease.

**Clause 12.**—Proposed new sub-section (*4*) provides for the imposition of a fine for non-compliance with the notice issued under sub-section (2) of section 27 or an order made under sub-section (*3*) of that section.

**Clause 13.**—Proposed new sub-section (*5*) provides for the imposition of a fine for non-compliance with a notice issued under sub-section (*3*) of section 28 or an order made under sub-section (*4*) of that section.

**Clause 19.**—Prohibits the employment of a member of a union board as an officer or servant of such board.

**Clause 20.**—Sub-clause (*1*) makes it clear that both the owner and the occupier of a building may be assessed to the union rate.

Sub-clause (2) provides that the union rate may be imposed by a majority consisting of more than half the total number of members instead of a two-thirds majority of the members of a union board.

**Clause 21.**—Sub-clause (*2*) gives power to the union board to exempt the owner and occupier of a building used exclusively for purposes of public charity from assessment to the union rate.

**Clause 22.**—Proposed new section 43 provides that, if the total amount of the arrear of union rate including the penalty realised does not cover the cost of the distress and sale, the district magistrate shall realise from the defaulter such cost in addition to the amount due. It also provides for direct transmission to the union board of sale-proceeds of the property sold beyond the limits of the union.

**Clause 23.**—Proposed new section 44A, which is based on section 159(*2*) of the Bengal Municipal Act, 1932, will enable the union board to pay surplus sale-proceeds to any person who establishes his right thereto.

**Clause 26.**—This amendment is consequential on the amendment made in section 66.

**Clause 29.**—Sub-clause (*3*) increases the compensation for frivolous prosecution in courts empowered to give increased punishment.

**Clause 33.**—Sub-clause (*2*) adds an explanation to section 81 to define the expression "commencement of hearing" which has given rise to considerable trouble in practice.

**Clause 34.**—Proposed new section 90 provides for payment of fees in advance by the plaintiff, no further fee being payable if the suit is transferred. It has been arranged that the fee paid in advance shall remain at credit of the union court, and that the plaintiff shall be reimbursed by the defendant proportionately to the success of the suit.

**Clause 35.**—Omits section 92. Proposed sub-section (*4*) of section 90 takes its place.

**Clause 36.**—Proposed new section 95 prohibits a union bench or a union court from trying a case or suit in which a member of the local union board is a party or personally interested.

**Clause 37.**—Proposed new section 100A provides for the resignation of a member of a union bench or a union court.

Proposed new section 100B provides for the filling up of casual vacancies in the union bench or union court.

Proposed new section 100C empowers the Local Government to delegate its powers to the Commissioner of the Division to reconstitute a union bench under section 65 or a union court under section 73.

**Clause 38.**—Proposed new clause (*qq*) in section 101(*2*) will enable the Local Government to make rules to regulate the procedure of the transfer of criminal cases and civil suits and for the retrial of civil suits.

## STATEMENT OF OBJECTS AND REASONS.

The Albert Victor Hospital for the treatment of Leprosy at Gobra is a State Hospital managed by a Board of Management under the Chairmanship of the Commissioner of the Presidency Division. The history of the Hospital goes back to the beginning of the 19th century, but the institution dates in its present form from the visit of Prince Albert to India in 1889, when a public subscription was raised to commemorate the visit and the funds were applied to establishing the Leper Asylum on a new basis under Government management. In pursuance of this decision the premises which had been constructed partly at the cost of Government and partly by public subscription were taken over by Government and the institution has since been maintained as a State Hospital financed from the budget of the Government of Bengal. At the same time there are several pre-existing Trust Funds which constitute a supplementary endowment for special branches of work.

2. There are many disadvantages in maintaining as a State Hospital an institution which makes so direct an appeal to public charity as a hospital for lepers. The result is to discourage charity which otherwise may be forthcoming for the improvement of the institution through the difficulty under the accounts rules of enabling the Hospital to benefit from General Endowments. At the same time the existence of miscellaneous Trust Funds allocated to special purposes at the Hospital has created difficulties of adjustment with Government expenditure. Finally, the Hospital has proved to be a centre for voluntary research work which would more conveniently be carried out at an institution managed by an independent Trust than in a departmental institution of Government. The Commissioner of the Presidency Division and the Board of Management have pressed for the institution to be placed on an independent basis.

3. For these reasons it is proposed to constitute the Albert Victor Hospital a Trust Fund Institution analogous to the Ranchi European Mental Hospital on a semi-independent footing as regards financial and administrative control, with a fixed grant from Government corresponding to the total average expenditure of Government on the institution in recent years.

4. It is expected that the adoption of this measure will stimulate and attract public charity towards the Hospital and it is hoped that the existing Trust Funds will form the nucleus of expanding endowments. In any case, the financial future of the institution on its present basis will be guaranteed by the statutory grant, while it acquires at the same time more independence of status.

5. The Bill closely follows the lines of the Ranchi Mental Hospital Act 1922 (XIII of 1922). Under the Bill the Board of Trustees on which Government are adequately represented is vested with the management of the institution and is given specific powers regarding land acquisition, maintenance of establishment, etc. The income of the Hospital has been specified, viz., a fixed annual grant from Government and the Calcutta Corporation totalling Rs. 67,000 together with contributions from municipalities, district boards, voluntary contributions from persons or associations, etc. The Hospital, as it now stands, has been brought into relation with sections 3, 5 and 16 of the Lepers Act 1898 (III of 1898). The present Bill preserves this relationship.
